METAL FABRICATION EXPANSION

DENYO MANUFACTURING CORPORATION, DANVILLE, KY

Key Metrics

LOCATION

Danville, Kentucky

SQUARE FEET

63,000

PROJECT TYPE

Expansion

MARKET SECTOR

Manufacturing

Denyo Manufacturing Corporation wanted to be able to fabricate their own sheet metal and decided to expand their Danville facility to do so. Denham-Blythe was selected to perform the design-build expansion for the 63,000 SF sheet metal fabrication shop. This is Denham-Blythe's fourth design-build expansion to the Denyo plant.

- Conventional steel building
- Relocated and expanded tank farm to hold chemicals for the manufactured generators
- 75,000 SF of paved truck access and parking
- Expanded restrooms and dock area
