

PROJECT EXPERIENCE

EMERGENCY DEPARTMENT RENOVATION AND ADDITION

APPALACHIAN REGIONAL HEALTHCARE, MIDDLESBORO, KY

This design-build project consisted of 5,420 SF of renovation, and a 1,585 SF building and canopy addition. Construction was completed in two phases keeping the emergency room open during construction. The renovation allowed for improved patient flow and worker productivity.

- Designed and built an ambulance canopy for covered patient entry
- Constructed a decontamination shower room, a bereavement room, and an EMS work area
- Constructed a new nurse station
- Renovated ten treatment rooms
